CAREER OBJECTIVE

As a Frontend Developer Intern, I aim to apply my knowledge of modern web technologies , including HTML, CSS, JavaScript, Typescript, Tailwind and React to build responsive, user-friendly, and accessible web interfaces. I am eager to learn from experienced professionals, contribute to real-world projects, and strengthen my skills in front-end development within a dynamic and innovative tech environment.

EDUCATION

OGUN STATE INSTITUTE OF TECHNOLOGY, IGBESA   Ogun State, Nigeria
National Diploma   Oct 2023 - Aug 2025
Computer Science
Cumulative GPA: 3.21/4.0;
Relevant Coursework: Web Development

WORK EXPERIENCE

Internship Scouter (Self-Initiated Experience)

Café Website

- Designed and developed a responsive website for a local café using React and Tailwind CSS.
- Implemented features such as menu display, contact form, and image gallery to enhance customer engagement.
- Focused on clean UI/UX design and full mobile responsiveness.

Real Estate Website

- Built a property listing platform showcasing available homes and apartments.
- Integrated search filters and image carousels for a smooth and intuitive user experience and booking/payment option.
- Developed using React Router, Tailwind CSS, and mock JSON data for testing.

Medical Website

- Created a healthcare service platform featuring doctor profiles, appointment booking, and contact functionality.
- Focused on accessibility, readability, and professional UI design to reflect real-world standards.

Gym Website

- Developed a modern gym landing page with sections for programs, trainers, pricing, and contact.
- Added an interactive booking modal for user sign-up and login functionality.
- Utilized React, Tailwind CSS, and React Icons for front-end interactivity and visual consistency.
